

## KITCHENAID – FOOD PROCESSOR ATTACHMENT

### *A practical attachment for dicing, shredding and chopping*

**HAMBURG, FEBRUARY 2015.** KitchenAid adds another one! Building on the wide success of its Food Processor, a food processor attachment is now available for owners of the Artisan Stand Mixer. The new attachment offers even more versatility to the Stand Mixer. It is a real kitchen companion for every serious cook: the food processor attachment makes slicing, dicing, shredding and chopping vegetables easy.

All components are assembled in a matter of seconds and fitted to the Stand Mixer's hub. The practical 2-in-1 feed tube accommodates a wide variety of sizes and shapes.

This versatile accessory helps you slice and julienne the way you've wanted to for years. Thanks to the exclusive ExactSlice system, choosing the exact slicing thickness is now easier than ever. The system is so adaptive that you can change the thickness with an external lever while working – and without swapping the slicing disc.

This accessory can do more than just slice and shred: a dicing kit is included that produces an eight millimetre dice within seconds. The dicing disc includes a blade and a special dicing grid. Make every dish an eye-catcher!

The food processor attachment for cook enthusiasts offers the quality you've come to expect from KitchenAid and saves time when preparing your recipes. The blades cut fast and precisely like a pro, bringing your daily cooking experiences up to a new level. And cleaning is easy, too: simply rinse the removable liner with warm water.

**KitchenAid – Serious About Food**

**Price:**

Food Processor Attachment, €229
