

THE ART OF MAKING COFFEE

KitchenAid presents the Personal Coffee Maker for demanding lovers of barista-style coffee

HAMBURG, FEBRUARY 2015. KitchenAid is proud to present its innovative Personal Coffee Maker to all coffee lovers. You can now brew perfect coffee to go right at home. No more waiting in queue at the coffee shop!

The sleek, compact American design of the KitchenAid Personal Coffee Maker will please every coffee enthusiast. In addition, the machine boasts distinctive features like brewing filter technology and electronic temperature control. This delivers an uninterrupted stream of hot water at constant temperature to extract a richer, fuller-bodied brew from ground coffee. Included with the machine is a dishwasher-safe permanent filter, making paper filters a thing of the past and a removable brew basket that holds paper coffee filters or the permanent filter.

This new addition to the KitchenAid family is available in Empire Red, Onyx Black and Almond Cream.

KitchenAid – Serious About Food
